Chas. F. Parkhurst, Prop'r.

THE present Proprietor, having put this popu-

lar house in renovated order, would inform tra-

velers from the West that its facilities for com-

fort and accommodation to transient boarders are

not excelled in Denver.

Transient patronage solicited and satisfaction

guaranteed.

Ford's Restaurant.

Blake Street, Denver.

SEALS at all hours, served up in superb style.

Game, Trout, and all the delicacies of Colo-

rado and the States constantly on hand.

About the Mines.

Having accompanied the late party to Rush Valley and seen and heard all that the distinguished travelers saw and said, we were still desirous of making a more minute examination of the mines than was possible in the little time allowed by their short stay in and about Stockton, and therefore remained behind to become satisfied by actual observation of their extent and value. We have spent two full days in the mines and, although but few comparatively could be visited, we saw enough to satisfy us beyond a peradventure that there is not in all the mining regions belonging to the United States—and we have seen all the richest and best—a locality that can surpass Rush Valley in the abundance and value of its mines of precious metals.

The number of leads exposed within the space of a few miles is truly wonderful and the quality of the ores taken from them show by actual test a superiority seldom seen in surface rock. There are hundreds of shafts commenced, but none have reached a depth of much over thirty feet, yet all of them have exposed ledges, assays of samples from which range from one hundred to four thousand dollars per ton, and, in nearly all cases, these ledges are no less surprising in width than in the richness of their ores. Having sufficient knowledge in these matters to speak with the assurance of experience, we do not hesitate to express our belief that in less than two years the Rush Valley mines will rank among the very best on the continent.

Confident in this belief we advise those who have discovered and opened them to the world, not to part with their interest lightly, except as it may be found necessary for their development, but to push forward the work upon them by every means in their power, possessing, as they do, the absolute assurance that ultimate success will reward their efforts, however long delayed. If the attention of capital could be once directed here the result would be greatly hastened, but, even without its assistance, persevering labor will finally reach the goal desired and may then stand independent of its patronage.

We are glad to see that a few of the gentlemen interested in the mines are not willing to wait the slow movement of events, but seem determined to ensure the result by their own efforts. They are sinking shafts upon their lodes and find encouragement as they descend, in the superior quality of ores extracted, showing that they have only to find the means to reduce them to make success a certainty. To this end a furnace on a new plan has been erected, which it is believed will prove more effective in the reduction of ores than any means hitherto employed. Correspondence has also been opened with parties who are thoroughly conversant with matters of this kind and they give every assurance that, by the investment of some capital, appliances can be erected that will effect the result sought. This we are assured has been, and is daily, accomplished elsewhere, and great profits realized from mines of not one tithe the value possessed by those of Rush Valley. We bid them a hearty God-speed in their laudable efforts, not without hope that the visit of Mr. Colfax and friends may have some effect in bringing the means of success to their assistance at an early day.

The Union Pacific Railway.

We learn from the Atchison, K. & P. Press, that John D. Perry, Esq., President of this road, is now in Washington, conferring with the Secretary of the Interior, and the Secretary of the Treasury, in relation to the receipt of the \$640,000 in Government bonds due the company upon the completion of the first forty miles to Lawrence. The Commissioners who received the road last week—Messrs. Garrison, of the Pacific Railroad, Col. H. C. Moore, of the Terre Haute and St. Louis road, and Hon. Richard Thompson, of Indiana, forwarded their report to the Secretary of the Interior immediately after their return to Atchison. The report was favorable to the acceptance of the road. As soon as the Government bonds are received the work will be pushed forward rapidly to Topeka.

Newbern, N. C., June 6th. Intelligence from all parts of the State indicate a return of the people to loyalty to the United States. Citizens of different counties are establishing a home police system for the purpose of maintaining order and suppressing depredations. The prospects are, there will be a movement made to restore civil law throughout the State. The inauguration of a new State government will call out the largest vote ever cast in this State, so anxious are the people to return to peaceful pursuits.

President Johnson's amnesty proclamation was well received by the people of this State; also the appointment of Mr. Holden as Provisional Governor. The people of South Carolina have called upon the United States military authorities at Charlotte, in this State, for protection against their own people, who are committing depredations upon each other.

Boston, June 10. The steamer Admiral Dupont, from New York for Fortress Monroe, was run into and sunk on the night of the 8th, by the British ship Stodacina, from Philadelphia for St. John, N. B. The steamer sank in ten minutes after the collision; the crew and passengers, except fifteen or twenty, were saved. The Stodacina sustained considerable damage by the collision, and was run ashore on Smith's Point, Nantucket, where she remains in a bad condition.

Washington, June 11. Dispatches received by the State Department announce that the government of the Netherlands had formally rescinded the recognition of the belligerent and the right accorded to rebels. This is in response to appeals of this government addressed to all maritime powers, and as Holland was about the first power that became our ally after the revolutionary war, so to her honor, she has been the very first to retract her steps, after having assumed a different position during the rebellion.

New York, June 11. The New Orleans correspondent of the Herald says: The estimated total amount of cotton secreted west of the Mississippi is one hundred thousand bales; two thirds of which is in Arkansas.

Pierre Soule is in Mexico. Ex-Gov. Moore was arrested at Mobile and sent to Washington.

Gen. Sheridan issued orders forbidding military interference with shipments of cotton.

The steamer Gov. Troup, bound for Savannah, with a cargo of cotton, took the eleven miles below Augusta. The vessel, cargo and baggage were lost, and four negro passengers were drowned.

Gen. Molinaux has ordered the school teachers in Augusta to take the oath of allegiance and orders have been sent by the authorities of Augusta for a supply of school books for free schools, and to be at once opened for all classes; all restrictions on trade are removed by Gen. (Gimre and Grover in their respective departments.

Washington, June 11th. Official news from Acapulco, dated May 9th, embraces the following intelligence, which was suppressed in the dispatches sent through French sources from Havana. Gen. Regulares with a part of the 1st division of the central national army of Mexico, attacked the city of Hualcochero, State of Achaeco, on the 11th of April and took it by storm; capturing all the Garrison, including 200 Belgians, together with ammunition and artillery. A few days before the national forces captured a train with supplies and ammunition from Moravia to Juarez and defeated the French forces at Turandero and Sonopio; all of Mococu and Cartaga had taken the field.

Washington, June 11th. The Navy Department received the following from New Orleans, May 31st: A dispatch dated the 25th has just been received from Capt. Sands, reporting the evacuation of the defenses at Sabine Pass and Fort Mansueto and Griffin. Acting volunteer Lieutenant commander Pennington, hoisted the United States flag on these forts. The guns, five in number, were spiked. Fort Griffin is described as having five bomb-proofs, covered with two feet of solid timber and two layers of railroad iron, four feet each, on top of these, there also were four magazines of like construction. Lieutenant Pennington left force enough to hold the forts and returned to his vessels, leaving the American flag flying.

Capt. Sands, under date of the 27th, reports the rebel army of Texas, disbanded and gone to their homes.

The terms of the surrender, recently executed at New Orleans between rebel commissioners sent by Gen. Kirby Smith and Gen. Canby having been complied with, on the part of the rebels, it only remains for us to occupy the fortifications.

With regard to the rebel naval forces in Texas, I am assured by confederate lieutenant commanding, Jonathan Carter, who is now here, and declares himself to be the senior naval officer, that there is no naval property nor any officers in Texas, on the seaboard, and only one vessel in Red river, the ram Missouri, which will be surrendered to the commander of the Mississippi squadron.

(Signed) Acting Rear Admiral. The Navy Department has also received news of the destruction of the famous blockade runner, Denberg, on May 24th, off Galveston, by the U. S. steamer, Fort Jackson; also the schooner called the Le Compe, used as a guard boat at Galveston, by the U. S. steamer Cornelia.

The Russian minister, Baro Stoekel, and the Spanish minister, Mr. Tassan, waited upon Mr. Seward yesterday, p. m., at the Department of State, to express in name, their respective sovereigns profound condolence and sympathy of the two great nations for the national loss sustained by the assassination of the late President and for the dreadful sufferings of the family of the Secretary of State; they greeted Mr. Seward, most cordially and expressed sincere satisfaction at his recovery.

The bureau of internal revenue, does not feel authorized by law to regard the amount received on policy of insurance as either legacy or income; consequently, assessors, until further advised, will not hold such amounts to tax.

Cairo, June 11th. The steamers, Poland and Idaho, collided on the Yazoo river on the 3d, resulting in the sinking of the Poland and a loss of ten or twelve lives.

Morgan, the rebel, who last year shot Gen. Canby, has been arrested.

New Orleans advices of the 6th, state, an important clue to the late disastrous

explosion at Mobile is thought to have been obtained. A man, named Wall has been arrested at Mobile, charged with being implicated; he states that he and two other men, on the night previous to the explosion, placed torpedoes between the building containing powder and that the work was performed under the direction of a rebel Major, who threatened them with instant death, if obeyed, or offered resistance, that Major afterwards lighted the fuse of the shell connected with the infernal machine. Torpedoes also were discovered in the rooms of the Custom House, so arranged as to explode on the opening of the doors; others were found concealed in the desks in the same building.

Gen. Warren has resigned his commission as Maj. Gen. of Volunteers and has been succeeded in command at Vicksburg, by Gen. Osterhaus.

N. Y. June 15. The Herald's Richmond and Petersburg dispatches, show a rapid revival of business in those places and great progress is made in the work of re-establishing civil government throughout Virginia, under the auspices of Governor Pierpont. The authorities as fast as practicable and politics are turning over the State property to the charge of the New State administration and in much better condition than was feared when it fell into their hands.

Washington, June 12th. Surgeon General Wm. Wheeler, chief of bureau of medicine and surgery of the Navy Department, died last night, after a protracted illness from disease of the heart.

New York, June 12th. The Times's special, from Chattanooga, the 18th, says: The tremendous explosion and fire occurred there on the evening of the 10th, is supposed to have been caused through the carelessness of sparks from a locomotive, which ignited loose powder in the Ordnance Department, exploding several thousand tons of fixed ammunition and loose powder. Shot and shell were sent hissing about town, many were killed and wounded. The immense quarter-master's buildings took fire; loss, a quarter of a million dollars. The Railroad Road is nearly completed to Atlanta. Prominent rebels are being arrested in Northern Georgia.

New York, June 12th. A Dispatch dated at Lexington, Ky., 10th, says: Reliable information has reached the friends of John C. Breckenridge, at this place, that he has arrived safe in Cuba; how he got there they refuse to say.

New York, June 7th. The Courier des Etats Unis, claims to have intelligence, that the town of Chihuahua, which has for some time been the seat of Republican Government in Mexico, has been occupied by the French General Acon, and that Juarez is on his way to the United States. No such news was received from Havana yesterday.

Halifax, June 9th. Per the Africa, from Liverpool 27th and Queenstown 28th. In the House of Commons, on the 26th, L. C. Walsh, asked Lord Palmerston whether the Government had received from the United States any formal official demand for compensation to American subjects for the losses sustained by the Alabama or any other Confederate cruiser alleged to have been equipped in British ports. Lord Palmerston said, correspondence has been going on for some time between the two Governments on the prizes taken by the Alabama and other vessels of the same kind, have been the dispatch closed here.

More Indian Murders.

About twelve o'clock, yesterday noon, after the dispatches, which appear elsewhere, came over the line, the wires were cut near Sweetwater Station. The operator, a soldier of the Ohio Vols., with one or two of his comrades stationed there, went out to mend the line. As they got it ready for operating, and on their way to the station, some Indians sprang up and shot, killing the operator and wounding his companion badly. It is difficult to tell when we shall receive the rest of those dispatches which commenced to come here yesterday morning.

Troops on the Plains.

The following received this morning shows that things are working, and that the troops are marching—after Mr. Ingersoll, as effectively as possible. There's a good time coming, for pilgrims over these plains:

JULESBURG, June 18, 1865.

DAILY UNION-VINDICATOR. The plains about Julesburg are dotted with the tents and trains of Gen. Connor's Indian expedition. Troops and trains are crossing the Platte river in the ferry boat. Part of the command and the General himself is on the way to Laramie. The troops of the expedition will start for Laramie en route for Powder river, in four or five days. Troops and supplies are arriving daily from the Missouri river, and are being pushed forward to Laramie and west, on the same route, as speedily as possible. A sufficient number of troops will be left for the protection of the mail route, during Gen. Connor's absence. Three steamers arrived at Omaha to day, with one thousand Cavalry, for one of his columns, which will join him at or near Powder River.

THE WESTERN TROOPS.—The Western troops appear to have won general admiration during their march through Washington at the grand review. The hardy soldiers who had traveled the Confederacy from one end to the other, were looked on with deep interest. The World's correspondent says:

It was a noticeable feature of these men, that although dusty and uncleaned from the soils of their long march, their soldierly bearing shone clearly through all disguises. The Western army has adopted the slouch felt hat instead of the smart regulation cap, being more protection from the hot sun and more comfortable in the cold. They stepped into Washington this morning fresh from a desert country. They have entered no civilized city since many of them passed through Nashville—no city where the traces of war and devastation were not visible. Could these men have been reviewed as they passed in review through Goldsboro', they would have resembled T. Pitt's ragged recruits, with scarcely a whole garment in the army. Most of them have been furnished

with new pants and shoes, although we saw some of them barefooted. But they are evidently not plenty in the army of Sherman. All seemed to have well-filled knapsacks; seven thousand miles of marching have taught them the secret of foot-travel. The marching was, if possible, superior to that of yesterday, although in some other important respects the discipline was inferior. The Western troops have generally a more slovenly and careless way of marching, but whatever graces they may lack in parade are more than atoned for in their heroic fighting.

FOR SALT LAKE.—Yesterday eight freight trains left this city for Salt Lake. One of the trains belonged to Turner & Williams of this city, and numbered sixteen wagons, loaded with merchandise for Barrow and Ridenbaugh. The firm has already loaded three large trains, and will load three more with their immense amount of supplies for the city of Brigham Young.—St. Jo. Herald.

U. S. 5.20 Six per Cent.

Gold bearing Bonds.

The Bonds are now worth a handsome premium, and are exempt, as are all the Government Bonds, from County and Municipal taxation, which adds from one to three per cent. per annum to their value, according to the rate levied upon other property. The interest is payable semi-annually by coupons attached to each note, which may be cut off and sold to any bank or banker.

The interest at 7.30 per cent, amounts to
One cent per day on a \$50 note.
Two cents per day on a \$100 note.
Ten cents " " " \$500 "
Twenty cents " " " \$1,000 "
One Dollar " " " \$5,000 "

Notes of all the denominations named will be promptly furnished upon receipt of subscription. The notes of this Third Series are precisely similar in form and privileges to the Seven Third Series, sold, except that the Government reserves to itself the option of paying interest in gold coin at 6 per cent., instead of 7.30 in currency. Subscribers will deduct the interest in currency on to July 15th, at the time when the subscription.

The delivery of the notes of this third series of the seven third series will commence on the first of June, and will be made promptly and cautiously after that date.

The slight change made in the conditions of the Third Series affects only the matter of interest. The payment in gold, if made, will be equivalent to the currency interest of the higher rate.

The return to specie payments, in the event of which only will the option to pay interest in gold be availed of, will so reduce and equalize prices that purchases made with six per cent. in gold would be fully equal to those made with seven and three-tenths per cent. in currency.

The only Loan in the MARKET.

Now offered by the Government, and its superior advantages make it the

Great popular Loan of the People.

Less than \$230,000,000 of the Loan authorized by Congress are now on the market. This amount, at the rate at which it is being absorbed, will all be subscribed for within sixty days. When the notes will undoubtedly command a premium, as has uniformly been the case on closing the subscriptions to other Loans.

In order that citizens of every town and section of country may be offered facilities for taking the Loan, the National Banks, State Banks, and private Banks throughout the country have generally agreed to receive subscriptions in part. Subscribers will select their own agents, in whom they have confidence, and who only are to be responsible for the delivery of the notes for which the receipts are given.

A Remarkable Fine Collection of

Music for the Piano-forte,

1,000 Pieces for \$12.50.

The following Books are of uniform size and

style and form the best collection of Choice Mus-

ic for the Piano-forte ever Published. The

HOMER CIRCLE, a collection of MARCHES, WALTZ

ALL SORTS OF ITEMS.

Just as the bee collects her sweets,
From every shrub and flower she meets,
What from many a source we draw,
We give you not the whole as new.

Matters Matrimonial.

On thy fair face 'tis sweet to gaze,
And thy dear form I love to praise,
For thou hast charmed the with thy voice,
And made my lonely heart rejoice.
While listening to thy words so sweet,
For which with thee Time's step was fleet,
As hours passed on in pleasure's maze,
And rapture crowned those halcyon days.
Upon thy fair, unclouded face,
The storms of life have left no trace,
And on that open brow serene
A calm and holy bliss is seen.
And in those eyes of tenderest blue
There lives a soul forever true.
Which innocence and peace all blast,
Ere the beauty and thy worth
And wish thee all the joys of earth.
May no dark shade of sorrow come
Across the threshold of thy home!
May peace preside where love shall dwell,
And all thou art at proper well.
And when the time for thee draws near,
To leave these sorrowing mortals here,
With sainted spirits mayst thou shine
And Heaven's eternal joys be thine!

A BARBER in Savannah says
he has used up more than \$100,
000 of rebel money, for shaving
paper.

WHAT is the difference between
ancient and modern chivalry?
One wore coats of mail and the
other coats of female.

GENERAL Philip Kearney was
the only American officer who
was ever decorated with the le-
gion of honor by the Emperor
Louis Napoleon.

The "glass wedding," absurdity
has come along. It is celebrated
on the fifteenth anniversary of
marriages, and glassware is pre-
sented by wedding friends.

In the Gallery of the Convent
of Jesuits at Lisbon, there is a fine
picture of Adam in Paradise,
dressed in blue breeches, with
silver buckles, and Eve with a
striped petticoat.

An ordinary California cow late-
ly produced what purported to be
a calf, but wasn't exactly. It had
eight legs, four ears, two tails
and three eyes, one of them di-
rectly on the top of the head. The
head was like that of a full grown
beaver.

A school boy in Cincinnati, six-
teen years old, named Frank
Douglas, committed suicide on
Wednesday evening by shooting
himself through the heart with a
rifle, because he had been "slight-
ed" by a school girl about his own
age.—Ex.

Among the interesting incidents,
says a Richmond correspondent,
which are being related in con-
nection with the evacuation of
this city, is one which may be
worthy of consideration among
the medical faculty. A colored
girl, whose sight had long been
defective, became blind about five
months ago, and continued so un-
til the terrible explosion of the
magazine in this city, which seem-
ed to shake creation. Recovering
herself almost immediately from
her fright, she exclaimed,
"Mother, I can see."
